**Gender based Violence Against Women**

Submitted By. Miss. Vaishnavi Vikas Borase

Class :- MBA yr  
Roll No :- MB 24008

## EXECUTIVE SUMMARY

- ▶ Gender-based violence against women is a pervasive global issue rooted in deep-seated gender inequalities. It manifests in various forms, including physical, sexual, psychological, and economic abuse, often reinforced by cultural norms and systemic discrimination. Studies indicate that one in three women experiences physical or sexual violence in their lifetime, leading to severe physical and mental health consequences, economic dependency, and social marginalization. The root causes of GBV include patriarchal traditions, weak legal enforcement, and financial insecurity, which prevent many women from escaping abusive situations.

# INTRODUCTION

Gender-based violence against women is one of the most widespread human rights violations in the world. It refers to any harmful act directed at a woman or girl based on her gender and is rooted in unequal power dynamics between men and women. GBV takes multiple forms, including physical abuse, sexual violence, psychological harm, and economic coercion, affecting women in both private and public spaces. It occurs in homes, workplaces, schools, communities, and even in digital spaces, making it a pervasive issue that transcends cultural, economic, and geographical boundaries.
